

Exercise Sheet 12d

Propositional Logic – Natural Deduction

Let F be the formula $(A \rightarrow (B \vee C)) \rightarrow (B \rightarrow C) \rightarrow A \rightarrow C$

and let G be the formula $(A \vee B \vee C) \rightarrow \neg A \rightarrow (B \rightarrow A) \rightarrow (C \rightarrow D) \rightarrow D$

1. Provide parse trees corresponding to F and G
2. Provide a constructive Natural Deduction proof of F
3. Provide a Constructive Natural Deduction proof of G
4. Are F and G equivalent? Justify your answer.
